

The federally funded Title I program in Wyoming Valley West is transitioning from a targeted pull-out program to a school-wide effort. This transition allows more children to receive academic services and instructional resources. Presentations made at “Meet the Teacher” and Parent and Family Events explain the benefits to parents as well as get parents involved.

YOUR OPINION MATTERS! Please take 5 minutes to answer a few survey questions and offer comments or suggestions on how we can best serve your child. We look forward to working with you. Together we can build the best program for our children. Thank you!
