

# Girls IN AVIATION DAY

A Women in Aviation International® Event

Dear Parents,

On behalf of Women in Aviation International, Northeastern Pennsylvania Chapter and the Girls in Aviation Day Committee, we would like to invite you to our first annual Northeastern Pennsylvania Girls in Aviation Day on Saturday, September 25, 2021 from 10:30am - 4:00pm at the Wyoming Valley Airport in Kingston, PA. All girls ages 8-17 are invited!

This will be the seventh annual international Girls in Aviation Day and our local chapter's first. The event is occurring all across the WAI network around the world. Every chapter is bringing the passion, exploration, learning, and excitement of aviation and aerospace to their event! The purpose of Girls in Aviation Day is to teach young girls about the possibilities within the world of aviation.

NEPA Girls in Aviation Day 2021 will consist of static aircraft displays, kids STEM activities, seminars for kids, and more. The event will be focused on "fun" with the intention of opening the doors of the Wyoming Valley Airport to young girls across Northeastern Pennsylvania!

Please contact us with any questions. We look forward to hearing from you!

Best,

*Molly Van Scoy*  
President

*Ashley Abda*  
Vice President

## About Our Chapter

Our Chapter is made up of 26 members. We are very excited and passionate about all aviation has to offer. Our members include student pilots, private pilots, commercial pilots, airline transport pilots and aviation enthusiasts.

We became an official Chapter this year! We held limited in person events this past year due to COVID, but were still able to participate in community projects such as creating a food drive for a local soup kitchen; delivering cards to a local nursing home; and publishing a monthly newsletter that includes a member spotlight, fun place to fly, aviation book recommendation and scholarship opportunities.

We recently held our first large event this past June. We invited the local aviation community out for a summer barbecue at the Wyoming Valley Airport in Kingston. Over 150 guests were in attendance. We were able to raise funds and awareness for our Chapter.

Our next event is attending the Pocono Airshow as an exhibitor in August! We will take questions, encourage young aviators, and educate the community on the possibilities aviation has to offer!

The logo for "Girls IN AVIATION DAY" features the word "Girls" in a blue cursive font, with a blue airplane silhouette flying across the letters. Below "Girls" are the words "IN AVIATION DAY" in a bold, black, sans-serif font. A green horizontal line is positioned below "IN AVIATION DAY". Underneath the line is the text "A Women in Aviation International® Event" in a smaller, black, sans-serif font.

## **About Women in Aviation International**

Women in Aviation International (WAI) is a nonprofit organization that encourages the advancement of women in all aviation career fields and interests.

WAI began in 1990 and was formally established in 1994 as a nonprofit organization. The first International Women in Aviation Conference was held in Prescott, Arizona, in 1990.

Membership Classification (percentage of members)

- 63% Individual (Professionals/Enthusiasts)
- 7% International (Outside the U.S.)
- 28% Student (High school/College and University students)
- 2% Corporate (Organizations/Corporations)
- More than 12,000 active members

Member Benefits:

- Aviation for Women, the official bimonthly publication of Women in Aviation International
- WAI Connect monthly electronic newsletter
- Annual conference for WAI members in all fields of aviation and aerospace
- Local chapters in communities around the world
- Government and industry representation
- Educational outreach programs
- Network base for personal and career development
- Scholarships
- Merchandise and services discounts
- Aeromedical Advisory Partnership
- Legal Advisory Program
