

Quarter	Content	Skills	Assessments	Eligible content
1	Evaluating Expressions Involving Fractions, Decimals, and Whole Numbers	Students will evaluate expressions involving fractions, decimals, and whole numbers.	Q&A Independent practice problems Quiz/Test	2.1.7.E.1 Apply and extend previous understandings of operations with fractions to operations with rational numbers.
	A) Apply Properties to Multiply and Divide Rational Numbers B) Decimal Form of Rational Numbers	Students will apply properties of operations to multiply and divide rational numbers, including real-world contexts. Students will demonstrate that the decimal form of a rational number terminates or eventually repeats.	Q&A Independent practice problems Quiz/Test	2.1.7.E.1 Apply and extend previous understandings of operations with fractions to operations with rational numbers.
	Model and Compute Using a Number Line	Students will represent addition and subtraction on a horizontal or vertical number line.	Q&A Independent practice problems Quiz/Test	2.1.7.E.1 Apply and extend previous understandings of operations with fractions to operations with rational numbers.
	A) Opposites and the Additive Inverse Property. B) Apply Properties to Multiply and Divide Rational Numbers. C) Add, Subtract, Multiply, and Divide Signed Rational Numbers	Students will apply properties of operations to add and subtract rational numbers, including real-world contexts.	Q&A Independent practice problems Quiz/Test	2.1.7.E.1 Apply and extend previous understandings of operations with fractions to operations with rational numbers.
